

# RK300-06 Differential Air Pressure Transmitter

Medium: Dry air or gas (no corrosive)

Differential pressure range: -10 to 0 to +10kPa (others on request)

Maximum static pressure: 70kPa

Overload capacity: 200% FS

Output signal: 4-20mA standard

Optional: 0.5 VDC, 0 to 10 VDC, 1-5 VDC (with minimum quantity)

Overall material: Aluminium

Power supply: 9-36VDC

Accuracy class:  $\pm 0.5\%$  FS (0.25% optional)
